SUMMARY

Motivated and detail-oriented aspiring Software Engineer with a strong foundation in programming, data analysis, and user-centered application development. Former Mortgage Loan Officer with 4 years of experience in financial consulting, client communication, and business development. Currently pursuing a B.S. in Computer Science at California State University, Fullerton. Skilled in Python, C++, Java, and UI/UX design with a passion for solving complex problems and building robust, real-world software solutions.

TECHNICAL SKILLS

- **Languages:** Python, C++, Java, SQL, HTML/CSS, JavaScript
 - **Libraries/Tools:** PyQt, Pandas, Matplotlib, VS Code, Eclipse, PyCharm
 - **Platforms/OS:** Windows, macOS
 - **Concepts:** Object-Oriented Programming, Data Structures, Algorithms, Software Design, UI Development, Search Algorithms
-

PROJECTS

Nitinol Material Property Calibration App

Capstone Project | Python, PyQt, Pandas, Matplotlib

- Built for Edwards Lifesciences to analyze Nitinol's stress-strain behavior in transcatheter heart valves.
- Designed an intuitive GUI to visualize mechanical properties and identify hysteresis loops.
- Engineered custom algorithms to process, smooth, and segment raw experimental data for cycle detection and export.

FitAI: AI-Powered Fitness & Nutrition Recommender

AI Project | Python, Constraint Satisfaction, Search Algorithms

- Developed a smart assistant that generates meal plans and workout routines based on user goals and constraints.

- Used A* search to balance workout efficiency across muscle groups and time.
- Applied CSP methods for diet personalization while ensuring nutritional adequacy.

Spotify LED Matrix Display

IoT Project | Python, Raspberry Pi, Spotify API

- Created a live music visualizer that displays current song information and album art on a 32×32 LED matrix.
- Connected hardware with Spotify's API for real-time data sync and display.

College Campus Trip Planner

C++ / SQL / Qt

- Simulated multi-campus travel experience including distance tracking, souvenir purchasing, and receipt generation.
- Combined C++ logic with SQL backend and Qt GUI framework for full application integration.

PROFESSIONAL EXPERIENCE

Mortgage Loan Officer

Secured American Lending, Irvine, CA

Jan 2023 – Feb 2023

- Designed and launched targeted marketing campaigns to expand client base.
- Assessed borrower eligibility through detailed credit and financial analysis.

Mortgage Loan Officer

Infinity Capital Lending, Huntington Beach, CA

Mar 2022 – Dec 2022

- Provided tailored financial advice on loan products for prospective homebuyers.
- Guided clients through document preparation, from contracts to closing statements.

Mortgage Loan Officer

West Capital Lending, Irvine, CA

Dec 2021 – Mar 2022

- Evaluated applicant qualifications and explained complex loan options with clarity.

- Delivered personalized support for clients with challenging credit histories.

Mortgage Loan Officer

Owning Corporation, Orange, CA

Jun 2021 – Dec 2021

- Closed 25–35 loans per month while maintaining compliance and client satisfaction.
- Managed a robust portfolio of borrowers and built long-term relationships.

Business Development Coordinator

Owning Corporation, Orange, CA

Aug 2020 – Jun 2021

- Facilitated pre-qualification outreach and coordinated with loan officers to boost lead conversions.
- Reviewed applications for completeness and ensured data integrity in client files.

EDUCATION**California State University, Fullerton**

Bachelor of Science in Computer Science – In Progress

(Expected Graduation: 2025)
